“Have you ever tried to eat healthy... but didn’t know where to start?”

The everyday challenge of eating right —
faced by millions of Thai people.

01

Overwhelming Confusion

Which product fits my medical needs?

02

Decision Stress & Paralysis

Fear of buying the wrong item.

03

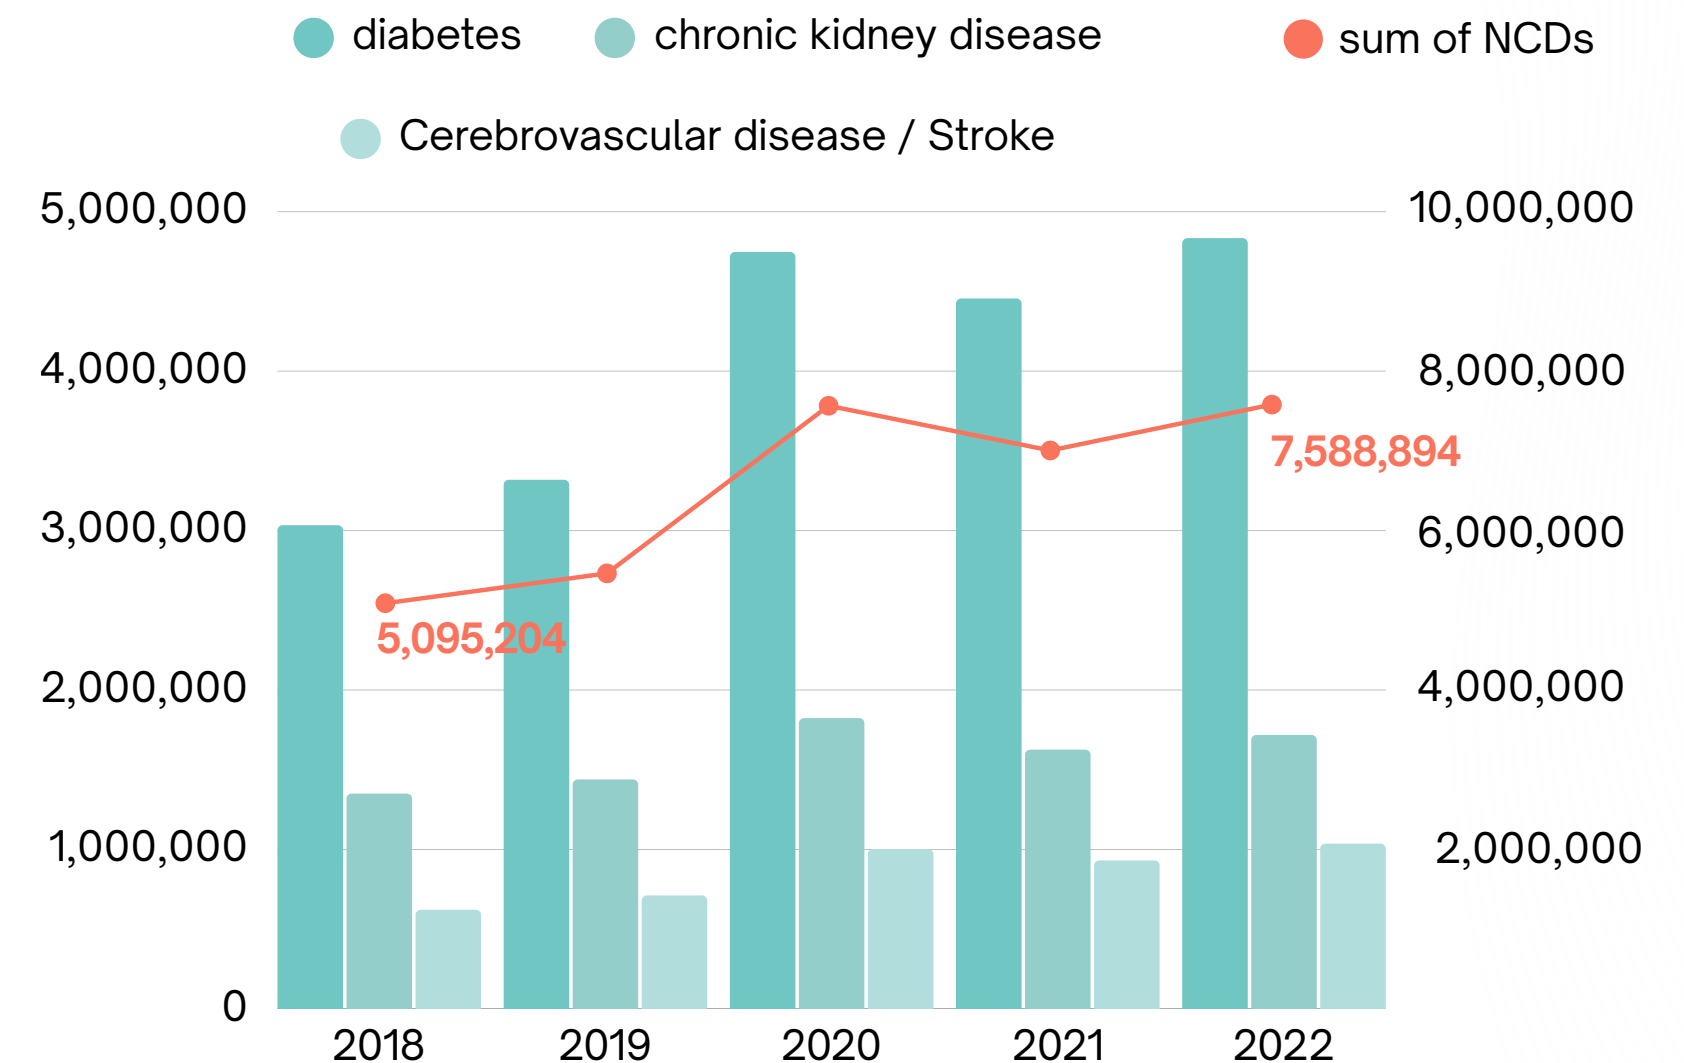

Lack of Actionable Steps

Know what to reduce, but not how to start or do it.

71%

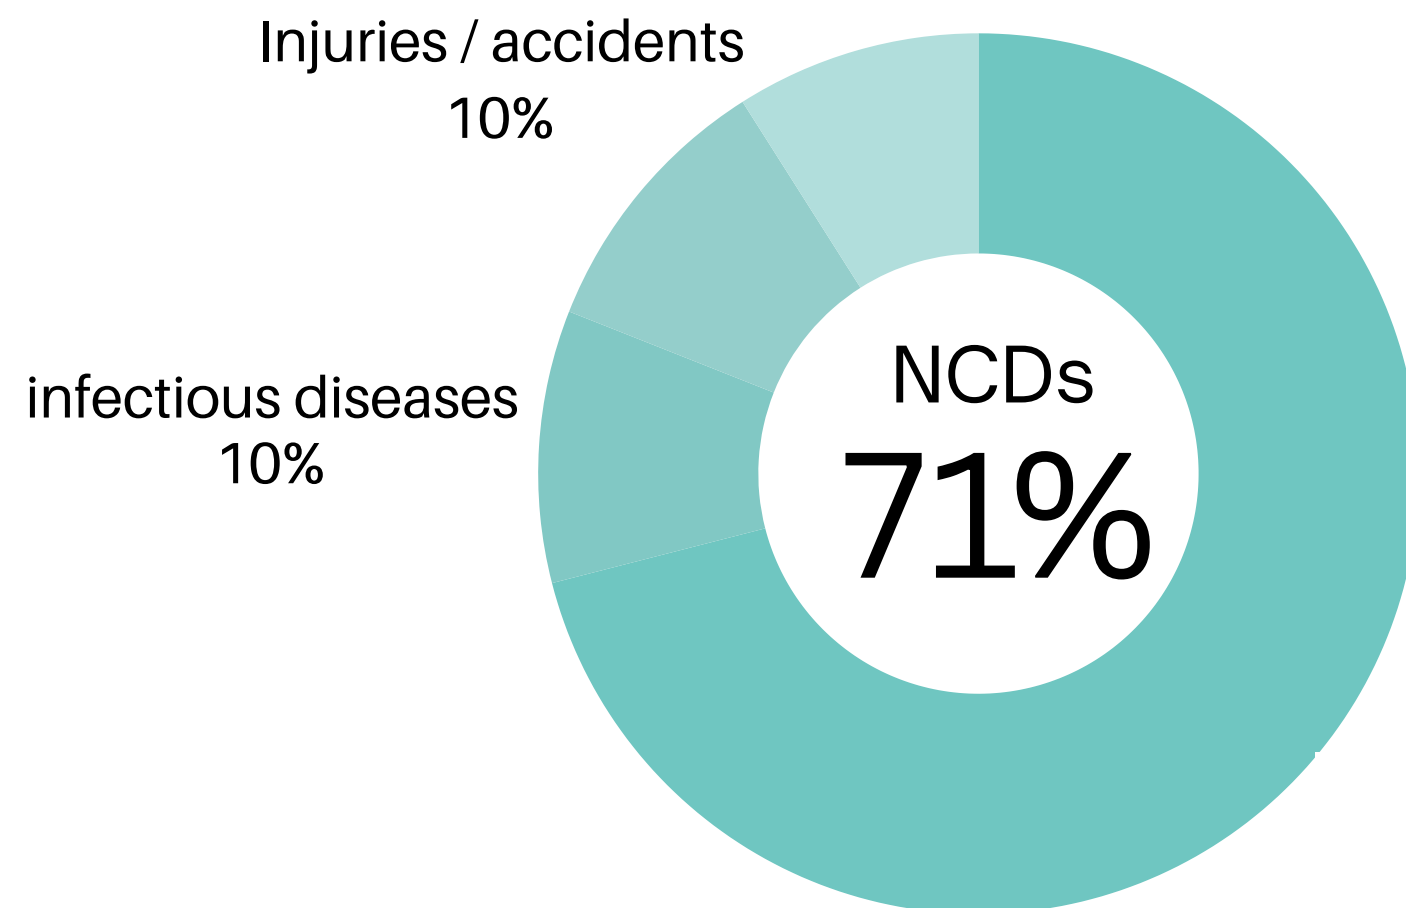

Percentage of leading causes of death in Thailand due to NCDs

Trends in Major NCDs Cases in Thailand (2018–2022)

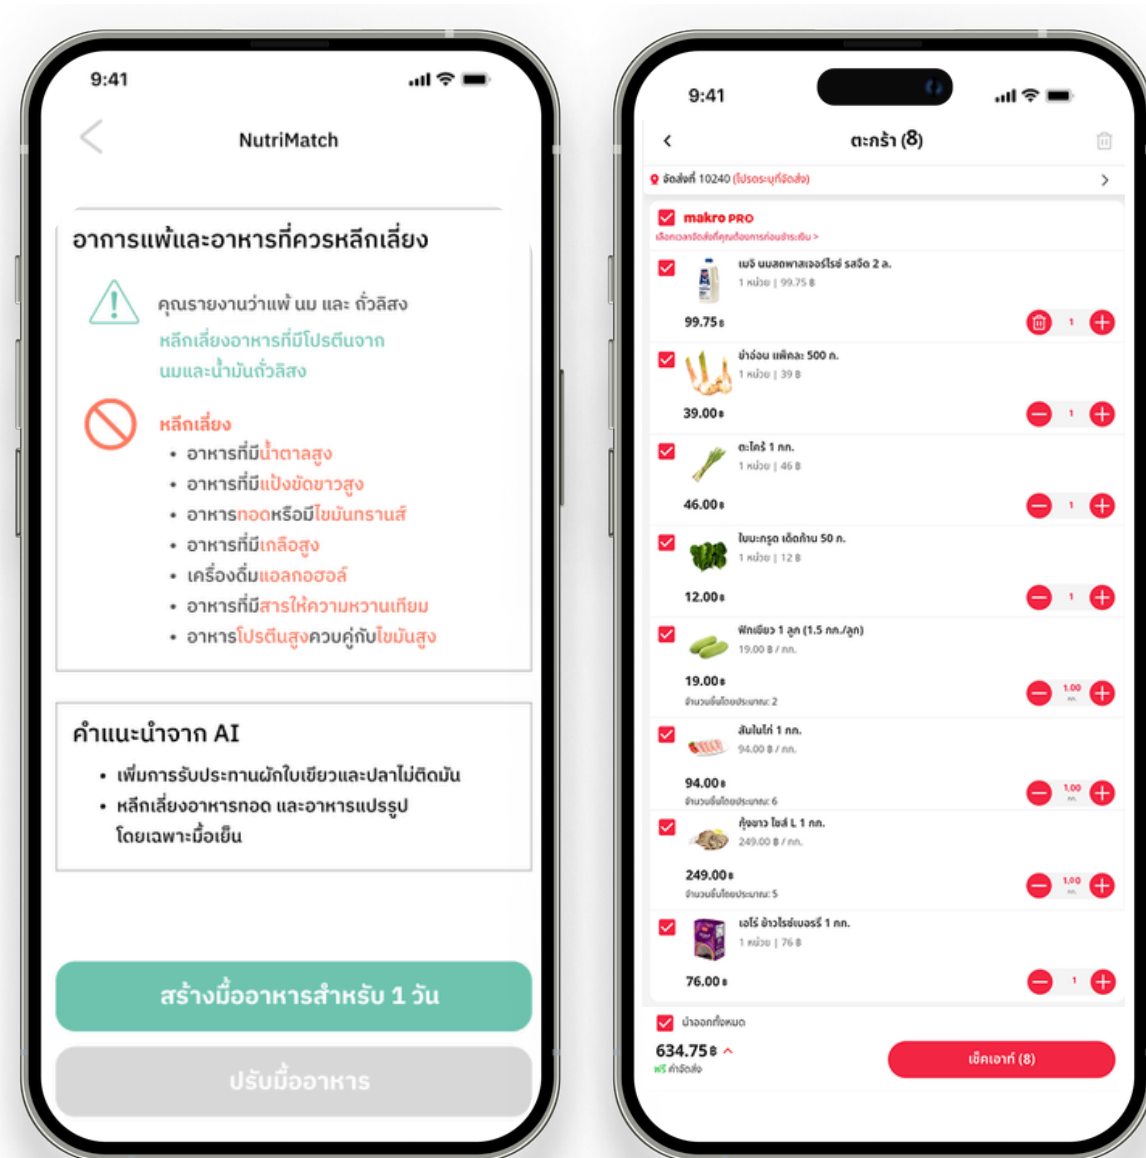

Trends in Major NCDs Cases in Thailand (2018–2022)

The number of NCDs cases grew by about **49%** between 2018 and 2022.

Solution

AI-Driven Personalized Nutrition

Transform your real medical profile into personalized nutrition plans — powered by AI for safer, smarter, and healthier eating.

Personalized Ready-to-Cook Ingredient Delivery (powered by CP ecosystem)

Get health-matched ingredients from Makro, Lotus's, and 7-Eleven — delivered fresh from stores near you.

Competitive Advantage

Access to Certified
Nutritionists and dietitians.

Securely stores patient health
data in the app.

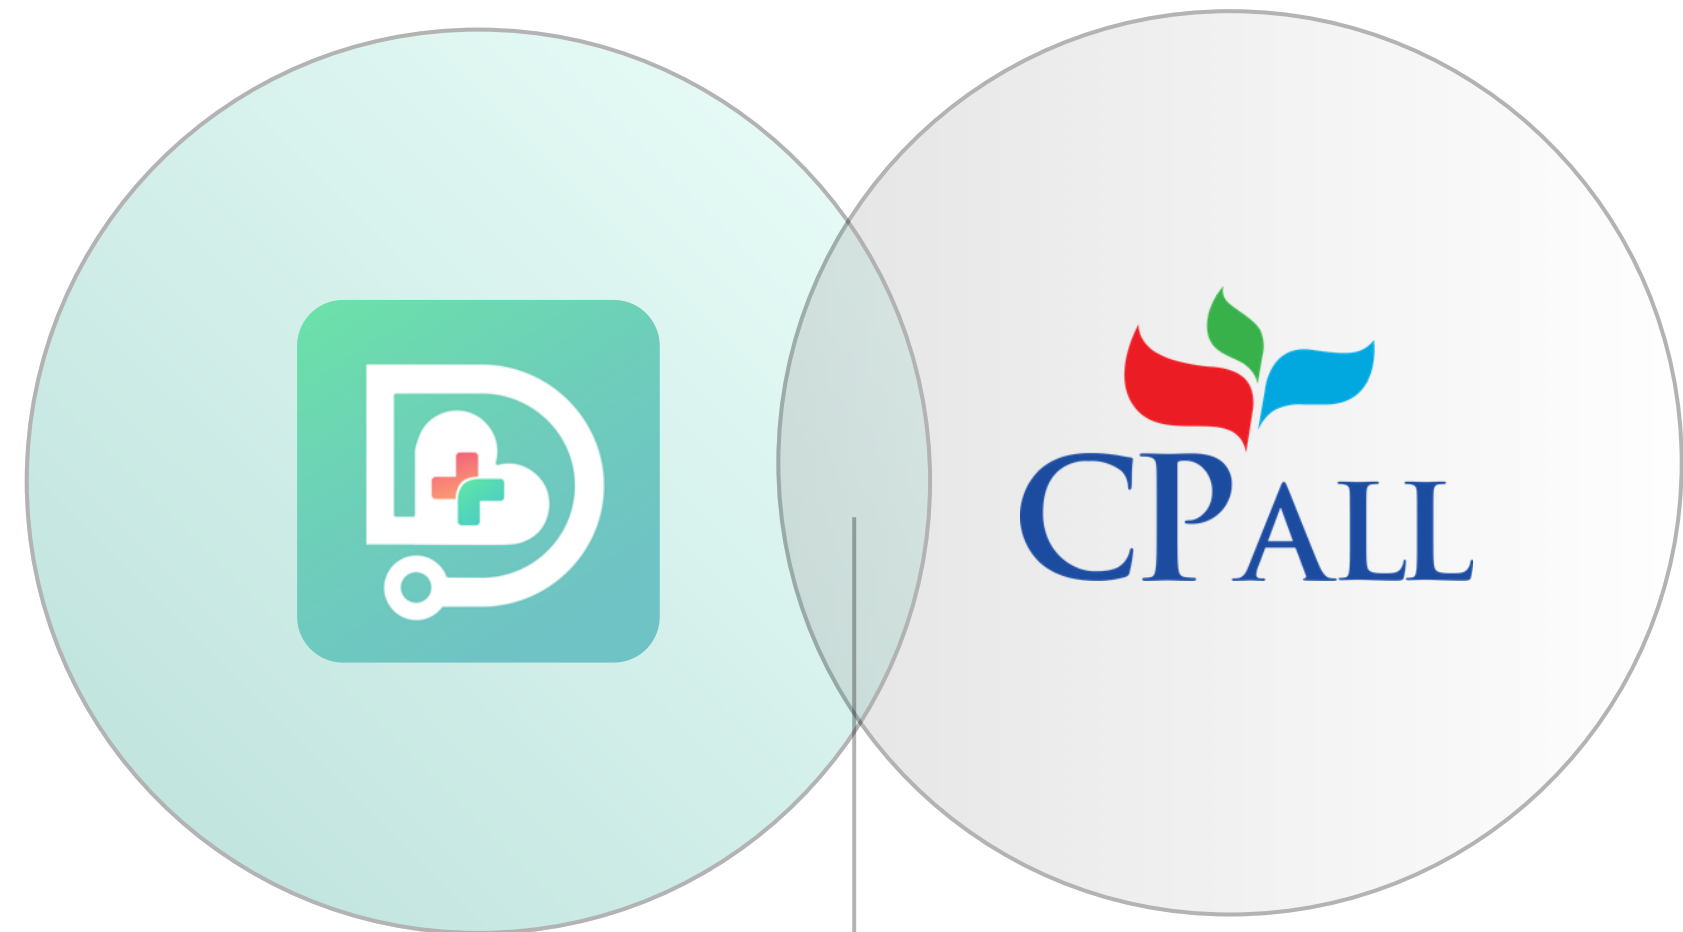

Access to a vast retail network
including 7-Eleven, Makro, and
Lotus's.

A wide selection of healthy
ingredients and food options
available for purchase.

Market Opportunity

Our AI Solution Bridges the Gap,
Monetizing Health Data by Driving
Sales within CP ALL's Network.

Nutrimatch

What Make NutriMatch Different ?

Personalized Nutrition

We use actual **health data from MorDee** (diseases, medications, real medical profiles) to create high-precision nutrition plans (Precision Nutrition).

Empowerment & Independence

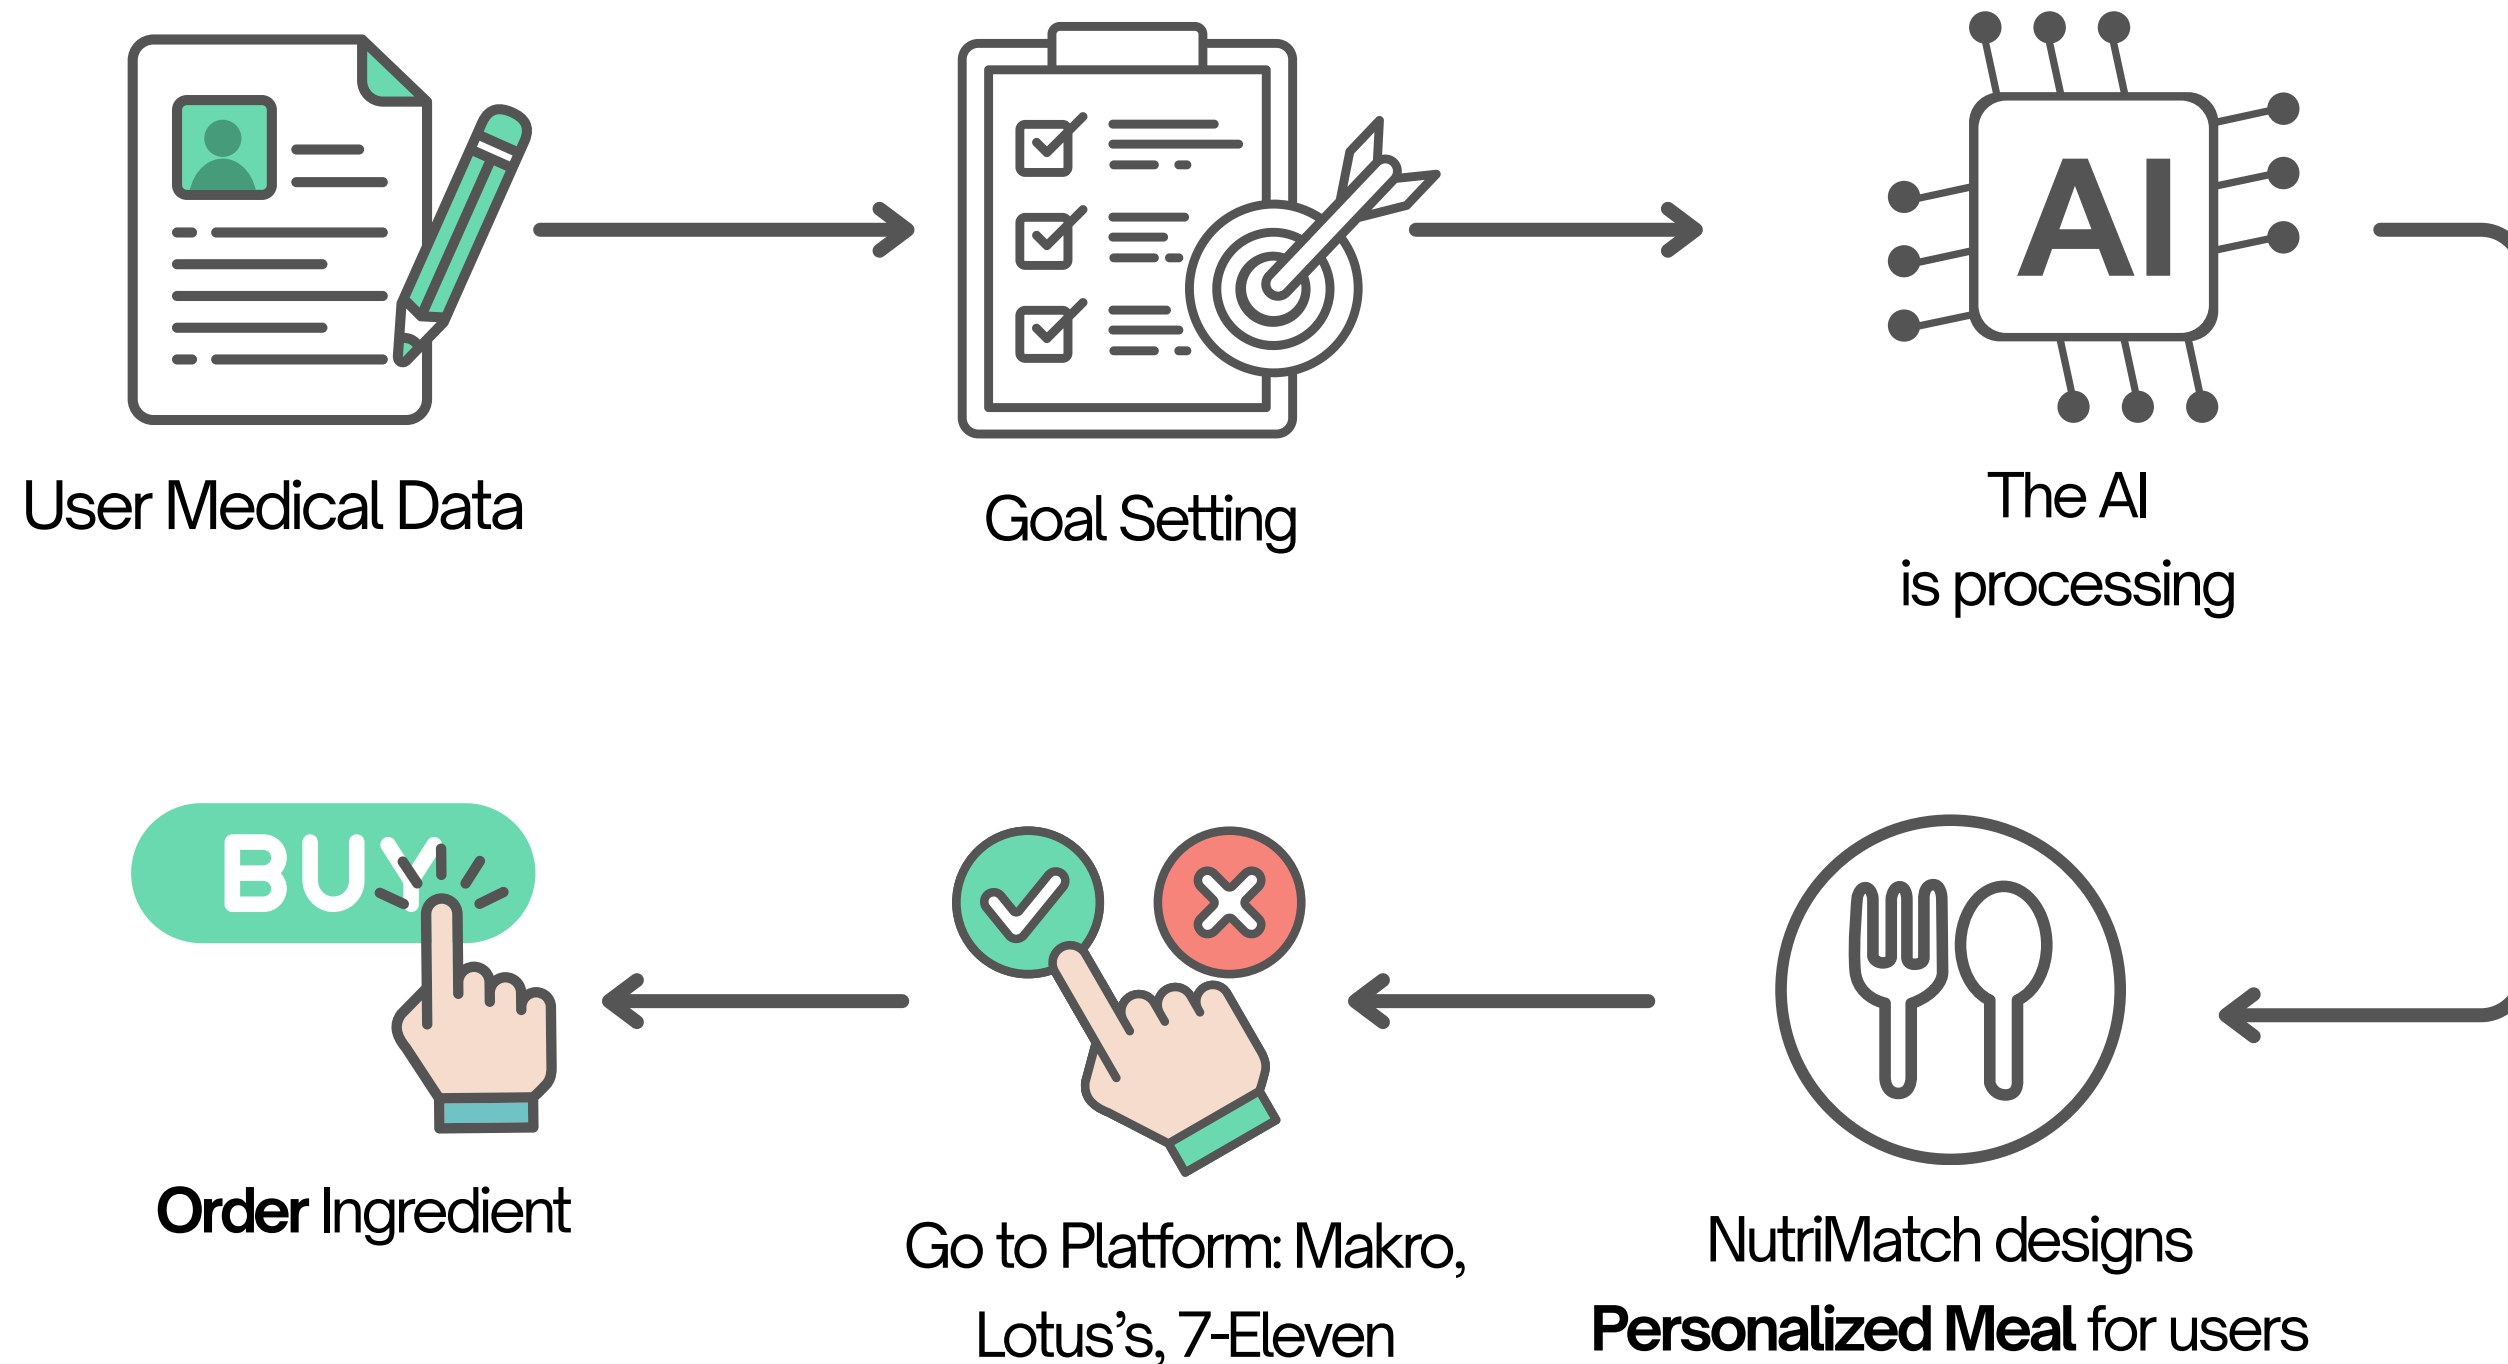

We empower users to shop for themselves—teaching them to identify and buy the **right products from Makro, Lotus's, and 7-Eleven** that match their health needs.

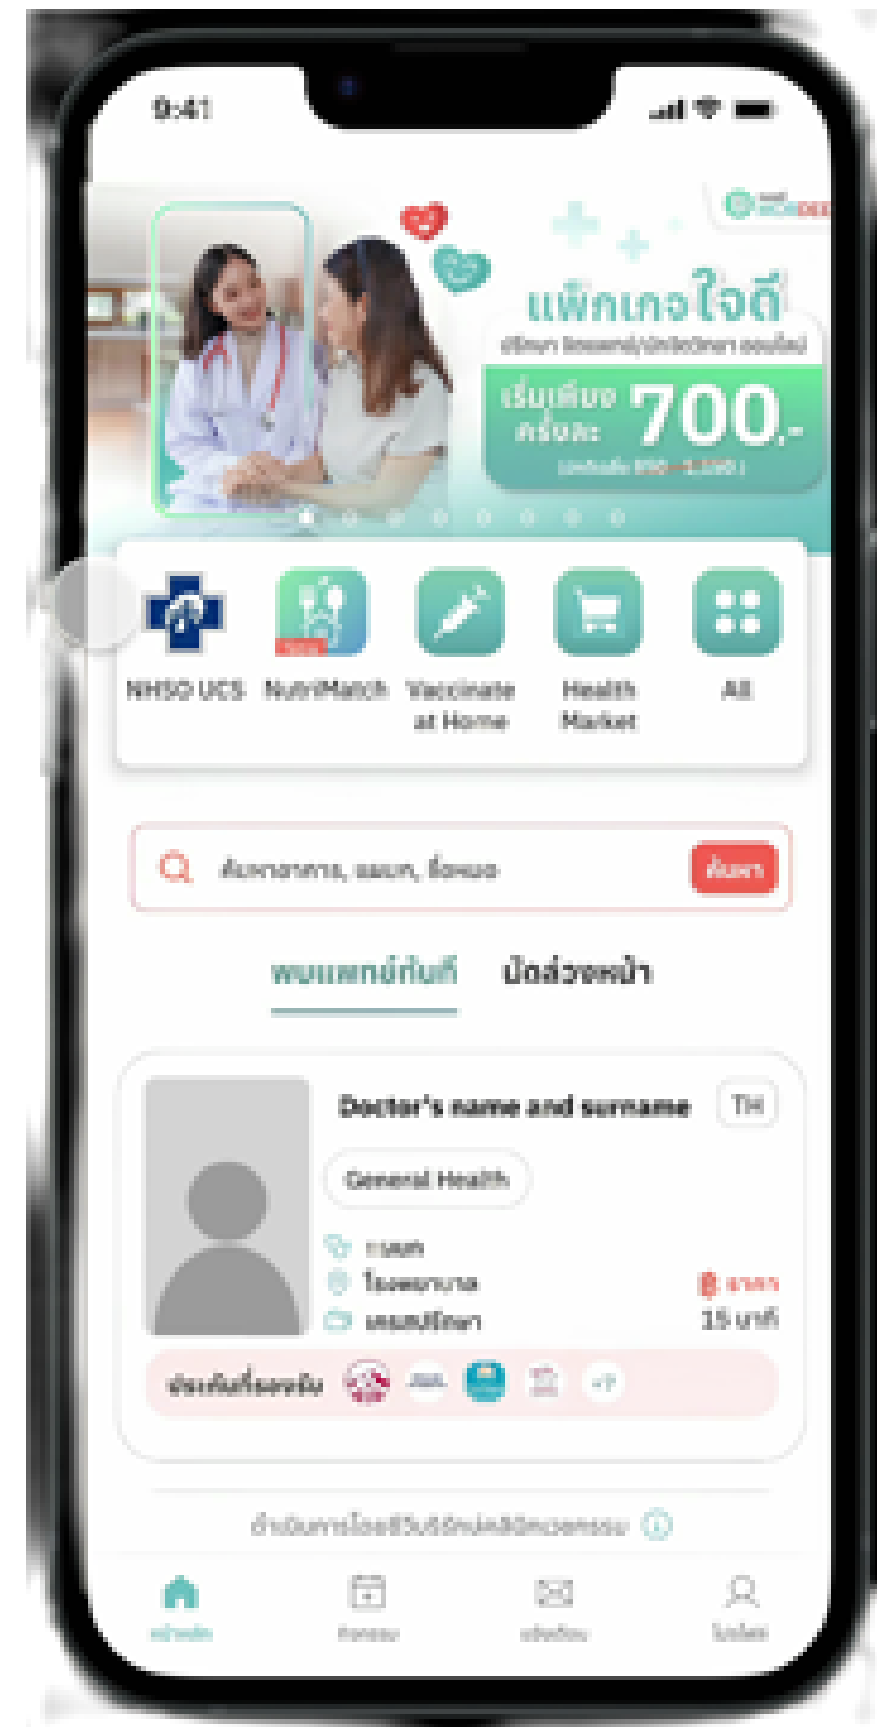

Amplifying the CP Ecosystem

Every recommendation drives customers to **CP retail platforms**. We turn health awareness into purchase behavior, creating a new revenue stream.

How the System Works?
